SUMMARY

Full-stack developer with ~3 years building production systems, currently a Senior AI Engineer at FlyRank. I specialize in turning messy inputs into clean, reliable outputs — automation, APIs, and content infrastructure that scale from "run it once" to "run it daily in production." I favor systems that are simple and dependable: clear inputs and outputs, strong logging and observability, and failure handling that keeps unattended jobs resilient. Comfortable across the stack, from Node.js backends to React/Next.js interfaces.

EXPERIENCE

FlyRank AI — Senior AI Engineer Jan 2026 – Present · Sarajevo

- Design and build automation systems and content pipelines powering FlyRank's AI-driven SEO and localization platform.
- Develop backend services, APIs, and scripts for content generation, localization, publishing, and optimization workflows.
- Built integrations with Shopify, Webflow, WordPress, Beehiiv, Shoptline, and Upload-post to automate delivery across platforms.
- Co-developed "Streams" — drag-and-drop assembly of modular pipelines — plus report generation, bulk AI content editing, keyword filtering, and a scheduled content-dripping system.
- Focus on scalability, observability, and resilience: strong logging, monitoring, and failure handling for unattended production jobs.

Power Commerce — Full-Stack Developer Mar 2025 – Jan 2026 · Sarajevo

- Built and maintained full-stack features for a content generation engine enabling automated, scalable content creation.
- Contributed across both backend logic and frontend interfaces, collaborating with cross-functional teams to ship reliable, production-ready solutions.

HulkApps — Junior Full-Stack Developer Aug 2023 – Jan 2025 · Sarajevo

- Developed full-stack features across backend and frontend using Vue.js and Node.js in a production e-commerce app environment.
- Grew from junior tasks to owning end-to-end features, building the foundation in shipping dependable, maintainable code.

SKILLS

Core	Node.js, JavaScript / TypeScript, REST APIs, backend services & automation
Frontend	React, Next.js, Vue.js, HTML/CSS
Data & Infra	Supabase, Bun, logging & observability, resilient job scheduling
AI / LLM	Claude, MCP, RAG, agentic workflows, prompt engineering, content pipelines
Integrations	Shopify, Webflow, WordPress, Beehiiv, Shoptline, Upload-post

CERTIFICATIONS

Claude Certified Architect — Foundations

Anthropic · 2026 · Cert No. s5bmrtdjr6gh

Production-ready AI apps: prompt engineering, MCP, RAG, agentic workflows.

EDUCATION

University of Sarajevo

Computer Science — coursework (1.5 years)

BEYOND CODE

Bass guitarist in the metal band **Lepra** · visual artist (graffiti, illustration, digital painting). Creative work at dario.tsx.
